

PLASMAMEDICAL

Medical Multi-PLASMA solution

Plasma Arc

Plasma Lifting

Not electrical arc but **genuine plasma arc** for the best assistance of plasma applications

Simple and ergonomic design for comfortable grip of stable operation without stress

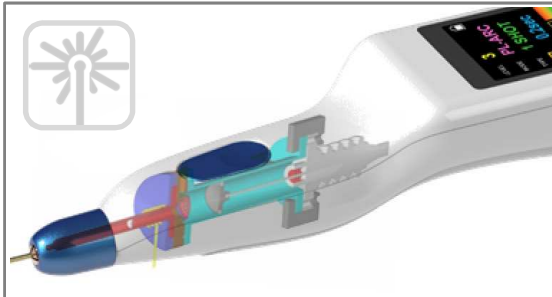

- All-in-one system with simply changeable 2 types of plasma treatment probe
- Pulse mode supports for more precise control
- Easy to use with full color OLED display
- Three level of output power adjustment
- Rechargeable battery-powered

PLASMAMEDICAL

Highlights

Genuine plasma output

To be different from a simple electrical arc of high voltage. Genuine plasma output by the plasma generator

Plasma Arc

Wide power range of 0.5~2.0W

Spot, mole removal
Soft surgery

Blepharoplasty
Fulguration
Sublimation
Electrocoagulation

Plasma Lifting

Specialized for Crow's feet

Modulated frequency of 100 or 200Hz

Without feedback electrode

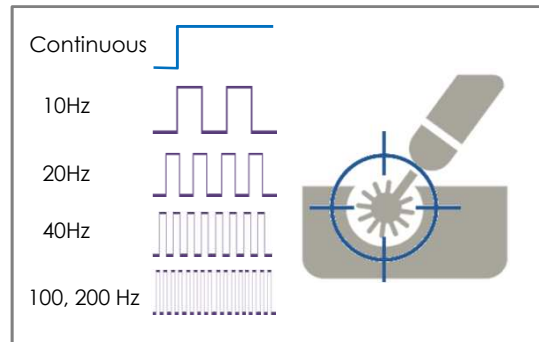

HV Induced single-polar probe

Specifications

- Output power: selectable 0.7W, 1.0W, 2.0W
- Output frequency: 70kHz
- Output mode: continuous, pulse
- Pulse rate: 10, 20, 40, 100, 200Hz
- Display: 1.5 inch full color OLED
- Treatment heads: plasma arc, plasma lifting
- Power supply: internal 7.4V 850mAh lithium polymer rechargeable battery with dedicated charger
- Weight: 120g
- Dimension: 185 x 40 x 40mm

Precise control by pulse mode

Not only continuous mode but also pulse mode supports for more precise control as similar with CO2 laser equipment

The newest OLED display

Full color OLED display with simple and intuitive interface
